MEMORANDUM TO THE DIRECTOR OF CENTRAL INTELLIGENCE

SUBJECT: Military Officer Personnel Authorizations for OPC

1. Submitted herewith are revised estimates of the number of military officer personnel required to discharge the obligations of this Office in the immediate future. These revised estimates are tabulated below and explained in detail in the three attachments hereto.

	ARMY		NAVY		AIR	
	Dom	O'Seas	Dom	O'Seas	Dom	O'Seas
Cols or Capts	5	1	1	1	1	0
Lt Cols or Cmdrs	5	1	5	1	6	1
Majs or Lt Cmdrs	4	3	10	2	6	1
Capt's or Lts	8	4	1	0	1	0
Subtotals	22	9	17	4	14	2
TOTALS			31	21	16	

2. Pursuant to discussions which I have held at your direction with representatives of the Department of Defense, the requirements of OPC for military officer personnel have been substantially reduced on two main grounds, to wit: (a) OPC has eliminated a substantial number of officers who had been included in original estimates for the purpose of training and indoctrination in the theory and practice of secret operations; and (b) following the suggestions of the representatives of the Department of Defense, OPC has specified the number of officers whom it expected to use effectively in the immediate future, as distinguished from the long-range estimates submitted previously.

3. At the suggestion of Admiral , every effort has been made to distribute our requirements as equally as possible among the three military services. In this connection, requisitions against the Department of the Army have been reduced in favor of the Departments of the Navy and Air Force in every instance where officers

from those services could be substituted for Army officers. On this basis, 10 of the 21 Naval officers included in the above table are identified in the attachments as Marine Corps officers.
